

Repeat Prescription (NTFGH & AH)

Follow these steps if your prescription has expired or your medication won't last until your next appointment.

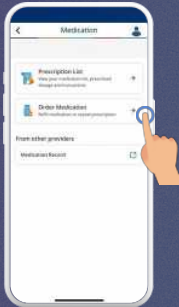

1

Tap 'Medication'.

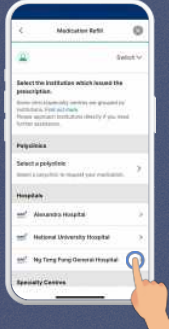

2

Tap 'Order Medication'.

3

Select the institution which issued the prescription.

4

Tap 'Click here to repeat your prescription'.

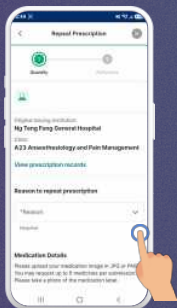

5

Select the clinic that issued your prescription.

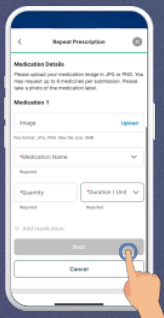

6

Select the reason for repeating the prescription.

7

Fill in your medication details.

8

Confirm your particulars.

9

Review and submit your request.

Note:

After your doctor has reviewed and approved your request, your medication will be found under Medication Refill. You may then submit a Medication Refill request.
