

# NUWoC Children's Clinic @ NTFGH

The National University Centre for Women and Children (NUWoC) Children's Clinic at Ng Teng Fong General Hospital (NUWoC Children's Clinic @ NTFGH) is a specialist outpatient clinic which provides comprehensive and coordinated medical services for children and adolescents up to 16 years old. We focus on the health and well-being of newborns, children and adolescents using a family-based approach. We accept referrals from primary and private healthcare partners, polyclinics, other restructured hospitals, and walk-in patients.

The clinic's multidisciplinary team of doctors, nurses, psychologists, speech therapists and dietitians work in partnership with parents and caregivers to care for each child and adolescent's health and development. Our paediatricians provide regular well-baby checks, child health care and vaccination, and evaluate and make recommendations for the management of developmental and behavioural problems.

Collaborative care for children and adolescents with more complex medical and chronic conditions is provided in partnership with the Khoo Teck Puat – National University Children's Medical Institute of the National University Hospital.

## Our Services

---

We provide a full range of general paediatric outpatient medical services for paediatric conditions such as:

- Acute childhood illnesses, such as bronchiolitis, urinary tract infection, hand, foot and mouth disease, gastroenteritis
